# Is your pet in their golden years?

Turn over to  
see if your pet  
is showing signs  
of becoming  
a senior

# Senior pet checklist

## Behavioural changes

- Keeping to themselves more
- Changes in appetite
- Drinking more water
- Having toileting accidents
- Increased vocalisation

## Activity

- Starting to tire easily
- Frighten easily
- Difficulty with their sight or hearing
- Gaining or losing weight
- Repetitive activity/disorientation

## Joints/Stiffness

- Difficulty or hesitancy when climbing stairs or jumping
- Less mobile
- Slower on walks
- Difficulty standing or sitting

## Self-hygiene and grooming

- Changes to skin or coat
- Decreased self-hygiene
- Difficulty grooming

**If you think your pet may be showing signs of becoming a senior pet, book in a senior pet consult at your local Animates Vetcare.**
